

EG4 BOSSBox Cable Kit

(sku: EG4BBSTARTKIT)

The **EG4 BOSSBox Cable Kit** is a pre-made set of cables designed to easily allow for adding a second inverter to your BOSSBox configuration. The kit is cut to length, ensuring optimal space use without cluttering the internals, along with crimped quick connectors for simply and securely connecting the batteries to your inverter. The components of the kit are included with a BOSSBox purchase, for connecting your initial inverter to batteries.

Includes:

- **Positive Inverter to Battery Cables (84 in.): Qty 2**
- **Negative Inverter to Battery Cables (84 in.): Qty 2**
- **Inverter Parallel Communication Cable (20 ft.): Qty 1**
