

EG4® Chargeverter Adapter Cables

The EG4® Chargeverter Adapter Cables are the smart solution for connecting your EG4® Chargeverter-GC directly to EG4® 280Ah Indoor and All Weather WallMount batteries—without the need for busbars. Designed for safety, simplicity, and durability, these cables come fitted with the proper terminals for quick and reliable installation.

Key Features

- Seamless Integration – Directly connect Chargeverter-GC to EG4® WallMount batteries.
- High Performance – Rated for 600VDC and 100A, ensuring robust and reliable charging.
- Durable Construction – Withstands extreme temperatures from -40°F to 257°F (-40°C to 125°C).
- Safe & Secure – Features a buckle locking method and crimped terminals for maximum connection stability.

Core Benefits

- Eliminates Busbars – Simplifies installation and reduces potential failure points.
- Optimized for EG4 Systems – Perfectly matched to EG4® Chargeverters and 280Ah WallMount batteries.
- Fast Installation – Pre-fitted with correct terminals to save time and ensure accuracy.

Key Specifications

- Rated Voltage: 600VDC
- Rated Current: 100A
- Max Wire Size: 4 AWG
- Weight: 2.65lbs (per pair)
- Length: 6'6"
- Wire Diameter: 9.3 mm
- Operating Temperature: -40° to 185°F (-40° to 85°C)
- Storage Temperature: -40° to 257°F (-40° to 125°C)
