

GridBOSS Breaker Kit - 90A

The EG4 GridBOSS Breaker Kit - 90A offers a comprehensive and convenient solution for integrating your GridBOSS system. Designed to simplify installations, this kit bundles all essential breakers required for a standard GridBOSS setup with a hybrid inverter requiring 90A breakers into a single package. Rather than sourcing each breaker individually, this kit ensures you have everything you need in one box for a more efficient and hassle-free installation.

GridBOSS Breaker Kit Includes the following BSB Breakers:

30A (x1), 40A (x1), 60A (x2), 80A (x1), 90A (x3)

Optimize your GridBOSS deployment with this all-in-one breaker solution.

Weight and Dimensions:

- **SKU:** EG4MIDBRKRRKIT
- **Length:** 16.7 in (42.5 cm)
- **Width:** 11.2 in (28.5 cm)
- **Height:** 3.7 in (9.5 cm)
- **Weight:** 11.0 lb (5 kg)

If pairing with an EG4 hybrid inverter other than the FlexBOSS21, please use the table below to determine proper hybrid port breaker size.

HYBRID PORT	SUPPORTED INVERTER MODEL	SUPPORTED BREAKER SIZE	SUPPORTED WIRE SIZE*	TORQUE VALUE
1 – 3	12kPV	50A	6 AWG	use torque value printed on breaker
	18kPV FlexBOSS18	70A	4 AWG	
	FlexBOSS21	90A	2 AWG	

*Size wire according to breaker amperage/system needs

BSB 30A Breaker (x1)

BSB 40A Breaker (x1)

BSB 60A Breaker (x2)

BSB 80A Breaker (x1)

BSB 90A Breaker (x3)
