FastJack®

Patent #6,360,491

UL2703*

Flashable Roof Stanchion

The patented design of the FastJack® is the most innovative, efficient and cost-effective tool of it's kind! The FastJack® has been laboratory tested to provide 2,359 pounds of strength using only a single lag bolt (included)!

Four Sizes Available!

3" High	Part# FJ-300-18
For low profile installations using Oatey® flashings (for composition shingle roof-tops)	
4-1/2" High	Part# FJ-450-18
For installations using standard flashings (for composition & flat rooftops)	
6" High	Part# FJ-600-18
For standard flashings (for flat tile rooftops)	
7-1/2" High	Part# FJ-750-18
For standard flashings (sized for S-curve tile roofs and/or double flashed installations)	

*The Fast Jack® design is covered under Pat. #6,360,491
Using 1 ea. 5/16" x 3-1/2" Lag Bolt

FastJack® FJ-300-18
For Oatey® style flashings

FastJack® FJ-450-18
For standard metal flashings

Serrated base grips the roof deck to prevent the base from moving while installing the lag bolt

All FastJack® attachments are sold in heavy duty reclosable boxes which allow for easy storage and handling

Box includes:

- (18) 1" dia. Aluminum Posts
- (18) 3/8" SS Flat Washers
- (18) Aluminum Bases
- (18) 5/16" x 3-1/2" Lag Bolts
- (18) 3/8" x 3/4" SS Bolts

Benefits of the FastJack®

- Removable post makes installation on existing roofs/retrofit quick and easy (refer to the illustration to the right)
- Patented design locates the lag bolt directly under the stanchion providing superior strength values
- Fast & easy to install—saves time and labor costs
- Precision machined from extruded aluminum, there are no welds to corrode or break
- Significantly lighter than steel for installer convenience and reduced shipping costs.
- Integrated drill guide insures perfect pilot holes every time—minimizes the possibility of splitting roof rafters
- Base design allows virtually any roof flashing to install flat on the roof deck

Easy installation of flashings on existing roof-tops
