

### Solaria PowerXT®-355R-AC

The Solaria PowerXT AC Module combines the latest cutting-edge microinverter technology from Enphase with the premium high-efficiency and superior aesthetics of the Solaria PowerXT Module. Utilizing the latest Enphase IQ7+ platform the PowerXT AC Module puts combines aesthetics and performance into an elegant product that reduces installation time by combining the inverter, module and monitoring.

Achieving up to 20% efficiency, Solaria PowerXT solar modules are one of the highest power AC modules in the residential solar market. Compared to conventional modules, Solaria PowerXT modules have fewer gaps between the solar cells; this leads to higher power and superior aesthetics. Solaria PowerXT pure black residential modules are manufactured with black backsheet and frames, giving them a striking appearance.

### Higher Efficiency, Higher Power

Solaria PowerXT modules achieve up to 20% efficiency; conventional modules achieve 15% – 17% efficiency. Combined with Enphase IQ7+ microinverter, the Solaria PowerXT AC Module is one of the highest power and most efficient AC modules available.

### Easy to Install

The integrated Enphase IQ7+ microinverter reduces installation costs due to fewer balance of system components, improved two-wire cabling and compliance with NEC 2014 & 2017 rapid shutdown requirements.

### Smart Grid Ready

Meets CA Rule 21 and complies with advanced grid support, voltage and frequency ride-through requirements. Remotely updates to respond to changing grid requirements and is configurable for varying grid profiles.

### Improved Aesthetics

Compared to conventional modules, the Solaria PowerXT AC Module has a more uniform appearance and superior aesthetics.

### Durability and Reliability

Industry leading 25 year warranty with a million hours of microinverter testing.
